EDUCATION

ITEEM - Centrale Lille & SKEMA Business School

Graduate Engineer

2019-2024 | Villeneuve d'Ascq - France

- Engineering program integrating technical and managerial expertise.
- Specialties: Management, Innovation and Digital Transformation
- SKEMA BS: MSc Project Program Management & Business Development

PROFESSIONAL EXPERIENCE

GLOBAL MANGROVE TRUST | Project Manager Engineer

2024 – Present | Remote

- **Product management:** Defined product strategy and functional requirements, managed sprints, and maintained backlog.
- **Technical project management:** Coordinated development teams (SCRUM) and implemented DevOps infrastructure.
- **Process automation:** Developed solutions to optimize data collection and reporting using python scripts and API implementations.

BIOMEDIQA | Application Engineer - Project Manager

2024 (6 months) | Internship | Villeneuve d'Ascq - France

- **Agile Project Management:** Led a major update of a medical web application from design to deployment.
- **Functional specifications:** Created detailed requirements and technical documentation.
- **UX/UI Design:** Redesigned the user interface for an optimized user experience.
- **Quality Control:** Supervised testing and validated processes.
- **Corporate strategy:** Contributed to the international expansion strategy across MENA region including market analysis and partner research.
- **Communication and coordination:** Planned content sequences and organized webinars.

HANDPRINT.TECH | Product Manager

2022-2023 (9 months) | Internship | Indonesia

- **Product Management:** Defined and implemented product roadmap for a B2B2C sustainable finance application.
- **Market analysis:** Led comparative market studies to guide product strategy.
- **Functional specifications:** Drafted detailed User Stories, Requirement Specifications and System Diagrams.
- **Technical Architecture:** Co-designed data architecture and API integrations.
- **International coordination:** Managed projects in collaboration with international teams and partners.

DECATHLON - DOMYOS | R&D Engineer

2021 (3 months) | Internship | Marcq-en-Baroeul - France

- **Product Design:** Created new accessories for treadmills, from 3D design to prototyping.
- **Environmental impact assessment:** Evaluated the carbon footprint of products to inform eco-friendly practices.

ACADEMIC PROJECTS

Digital Transformation of a Company

- **Digital strategy:** Developed a long-term transformation strategy and digitized key processes.
- **Operations Optimization:** Assessed operations to identify improvement opportunities and key digital initiatives.

VIDEOPORTRAIT | "SME BOOSTER" project (8 months)

- **Digital strategy:** Developed transformational growth strategy and accompanying brand identity based on robust market analyses.
- **Web development:** Designed a website and managed projects within the company.
